1115 Charles Davies in Case 1111, Doctor visited, and found the family very destitute, The Man is far advanced in Consumption, the right lung being affected throughout to such an extent as to render it useless, but the left is comparatively good yet. Doctor thinks however from the character of the disease in the right, that its course will be rather rapid.
Doctors opinion is that the report about finding him helplessly drunk the other day is entirely a mistake, for although he does not deny having been with in former days, yet Doctor does not think anyone could very easily make him drunk in his present state of health - He is unable to work. His wife was perfectly sober when Doctor saw her, and cannot say whether she is addicted to the use of liquor or not. 1118 Jane Boyle in Case 1110. Doctor visited and states - I have examined Jane Boyle at St Vincent. She was very ill when I saw her but said she was suffering from inflammation on the brain and had applied an imaginary blister to the back with benefit. The Matron tells me that she is sometimes insane at times, generally at night, fancying that some person is always after her, coming out of cupboards and all sorts of impossible places to catch her, and often disturbing the House in her sleep, formerly she used to barricade the door with

boxes chairs, &c but bitterly she has not. There is no doubt the poor woman is insane and I think it would be an act of cruelty to expose her to the annoyance she would experience from the class of women she would have to mingle with in the House of Industry. The Lunatic Asylum is the only fit place for her.

Doctor examined & reports that Hillyard says his Brain burns & his Scalp smarts, he cannot fix his thoughts, wants to be alone, feels as if people were trying to circumvent him, his mind flashes in a passion in a moment without motive &c &c

After a careful examination, I cannot see any thing very pronounced in his case, but his mind is evidently weak, what it may ultimately lead to I cannot say he may after a time pass into dementia, or he may become insane
